All this, however, has suddenly changed, and the Journal is ferociously savage in its criticisms upon his last report. The editor likes neither its style, tone, or length. Nor does it stop at ing. that. Although it has ever been the advocate of the very highest protective duties upon sugar, it now growls and snarls at Mr. Guthrie for not recommending the total abrogation of the duty on that article. It wants an entire repeal of the sugar laws, and thinks there is "wretched injustice" in Mr. Guthrie's not advocating it.

President's message as relates to foreign affairs to the committee on that subject, being under onsideration. Mr. Brown replied to the speeches of Messrs.

Wilson and Seward, remarking that the bold and defiant air assumed by them previous to the residential election had greatly changed since hat time. They had vauntingly predicted what hey would do in the event of success, but now ney auxiously declaim against any connexion or affiliation with Garrison extremists, whose assistance they had sought. They intimated hat when the proper time should come they innded to make an onset upon the institution of very in the States, but now they utterly disavow such intention. Politicians of the ultra stamp had been some what changing their tone. It seemed to be the programme of the Black Republicans that the camps of the two wings of that party should be within sight of each other for the next four fears, and their standards so nearly alike that a ldier fighting under one and going over to the other would not render himself liable to the charge of desertion, The Senator from New York (Mr. Seward) had made him a present of his speeches published by Redfield. Unlike his friend from Tennessee, (Mr. Jones) he meant to take them to Mississippi, to exhibit to his constituents how much venom against them, their rights and their interests, had been comprised within the limits of a volume like that he held in his hand. He read extracts from them to show that Mr. Seward believed in a higher law than the Constitution, and had said, in addressing a northern audience, that slavery can and must be abolished, and you and I can and must do it .-Mr. Brown further read a letter from Mr. Wilson to Wendell Phillips, to show that the hope was expressed that they might co-operate for the emancipation of the slaves, and to break the do inion of the master.

Mr. Wilson explained that he desired Mr. hillips to come on his platform, and that it was ot his intention to go on Mr. Phillips. Mr. Brown remarked that he had been assured n good authority that Mr. Wilson had recently, in a hotel in Washington, expressed the opinion that the slaves were justified in rising and murdering their masters, and he would not advise them not to do it.

Mr. Wilson denied that he ever, on any occaon, had such a thought or expressed such an Mr. Brown rejoined that he had it in writing

Clingman, under a suspension of the rules, ntroduced a bill expianatory resolution author zing the President to confer the title of Lieuten ant General by brevet. The object was to place General Scott on the same footing as Washington was under the laws of 1798. If Scott had been a subject of a foreign government, a large doraa of money have been made as a compliment to his eminent services, but Clingman had no such design. It was well known that the Atorney-General and the Secretary of War entertained different opinions as to the amount of the tax to which Scott was entitled, and that sum adjudged proper by the Secretary of War was allowed. He did not however undertake to say that that decision was wrong or that the Secre-tary was actuated by other than proper motives;

was a mere matter of construction. In reply to a question by Carlisle, Clingman aid that Scott had received about three thousand dollars, and should this bill pass he would receive bout twenty thousand for nine or ten years ack. The bill gives what Washington would have received under the law of 1798, nothing ore, and the amount to which Attorney-Gen eral Cushing says he is entitled. The bill passed. Rev. Geo. Beckett's INSTITUTE FOR YOUNG LADIES JEFFERSON COUNTY. KX.

OUR design is that of an Fernale High School, having its number of Pupils II nited to twenty five, in order to furnish those domest c comforts and cajoyments which cannot possibly be afforded by large Schools. The internal regulations are maintained on the principle of delegated parental authority and our long experience assures us that this principle, clearly understood and faithfully carried out, secures all the ends of good order and chest-ful acquiescence in all school duties.

The regular course of study is such as the times required of all those who would enjoy the benefits of a liberal air, finished education. Masters of the first celebrity are employed in the departments of French and Mu-ic, to which special attention is directed.

The scholastic year consists of two terms of five months each, without intermission, except the stimas week.

The first term commences with September and closes with January, and the second term commences with Febraary and closes with June.
